2b ONE COLOUR

Work throughout as for **2a Two Colour** in one colour only, noting to use a separate ball of same colour where C2 is used to achieve the pleat effect. Decorate as desired.

KNITTING STITCH EMBROIDERY

Interest can be added to garments with Knitting Stitch embroidery - this is very easy to do, especially if you do the embroidery before you sew up the garment. Knitting stitch is worked over each knitted stitch with a contrasting colour. It is necessary to use yarn of the same thickness as the knitted garment. Be careful not to pull the stitch too tightly and it will cover the existing stitch completely.

A completed stitch looks like a "V". Each square on the graph represents one stitch. It is a good idea, before beginning, to colour in the graph in the colours to be used.

Begin at lower edge of graph, on the right-hand side.

Using a tapestry or knitters needle, bring the needle from the back through the centre of the stitch below the one to be covered.

* Take needle from right to left under both strands of stitch above the one to be covered.

Bring needle back to the start of the stitch, take needle behind 2 strands in row below and across into the centre of next stitch. You have worked one knitting stitch.

Repeat following graph for required number of stitches. To finish, bring needle back to the start of the stitch and through to the back of the work.

To begin the second row - Bring needle from back to centre of stitch below the one to be covered. Working from left to right pick up both strands of stitch in row above the one to be covered.

Take needle back to beginning of stitch, pick up 2 strands which brings the needle across into centre of next stitch. When working stitch above one worked in the previous row your needle will come up in the centre of this worked stitch. Repeat this, following graph for number of stitches to be worked.

TO MAKE A TWISTED CORD

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over door-knob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist. Knot ends to prevent unravelling.

TASSELS

To make a tassel, cut a piece of cardboard several centimetres long, to the width desired (i.e. the length of the tassel you wish to make). Wind the yarn round and round the cardboard - the number of times it is wound round the cardboard depends on how bulky you wish to make the tassel. Break off yarn, leaving an end several centimetres long, thread through needle. Slip needle through all the loops on the cardboard, and tie yarn tightly at one edge. Slip cardboard out and wind the yarn several times around the loops 1 cm from the fold. Draw the needle through the top, and attach the tassel where desired. Cut though the other fold and even off the ends.

BULLION STITCH

Pick up a Back Stitch, the size of the Bullion Stitch required, bringing the needle point out where it first emerged, do not pull the needle right through the fabric. Twist the thread round the needle point as many times as required to equal the space of the Back Stitch. Hold the left thumb on the coiled thread and pull the needle through; still holding the coiled thread, turn the needle back to where it was inserted (see arrow) and insert in same place. Pull thread through until the Bullion Stitch lies flat. Use a needle with a small eye to allow the thread to pass through the coils easily. Arrange a circular group of Bullion Stitches to make a Grub Rose.

FLAT SEAM

This method is sometimes used for knitted garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top through the centre of the stitch, then in same manner through corresponding stitch on second piece.

Note - Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic -there should be as much stretch in your seam as there is in the rest of your garment.

POM-PONS

To make a pom-pom, cut two circles of cardboard, the diameter depends on the size of the pom-pom to be made, and should be equal to the size of the finished pom-pom plus approximately 1.25 cm for trimming, plus the diameter of the centre hole, e.g. for a pom-pom 4 cm across, the circles would be 4 cm, plus 1.25 cm, plus 1.25 cm for centre hole, equals 6.5 cm. Cut a round hole in the centre, the size of the hole is approximately a quarter of the finished pom-pom. Wind the yarn round and round the cardboard until the centre hole is completely filled up. Place the point of a pair of scissors between the two circles of cardboard and cut around, keeping the scissors between the cardboard all the time. Using a double strand of yarn, wrap round between the two circles of cardboard, knot firmly, and take away cardboard. Trim pom-pom.

VARIATIONS IN SPECIFIED YARN QUANTITIES

Knitters occasionally comment that the quantity of yarn recommended varies from the amount they actually use. One major reason for this is that no two people knit or crochet in exactly the same way. When we specify a quantity of yarn for a particular garment, we are stating a figure that is the end result of having each individual design made by as many as six different knitters. The average quantity determined by this check knitting is regarded as the most satisfactory figure for that particular garment, knitted at the **correct tension** * to the measurements specified and in the actual yarn recommended. Naturally, if you decide to change the body or sleeve length **you must allow for an adjustment to the quantity of yarn.**

* **Correct tension** - see tension instructions for your item.

KNITTING UP STITCHES

This is the method used for neckbands, armhole bands, etc. Hold work in left hand with right side facing you. Hold working needle and yarn in right hand. Insert point of needle through work from front to back. Wrap yarn round point of needle and knit a stitch.

When working along a cast-off edge, insert needle under both loops of cast-off stitch, and knit up one stitch in each cast-off stitch. (Diagram A)

When working along side edge, insert needle inside one full stitch from the edge (i.e. behind 2 loops of stitch, not just the edge loop). (Diagram B)

You will find along this edge that there is alternately one long and one short stitch. If you require less stitches than there are rows along this edge, always knit up through the short stitches and omit some of the long stitches. (Diagram C)

Before commencing, always count the number of rows you have and compare it to the number of stitches you require, then you will be able to make any adjustments evenly along the length of the work. If you find it difficult to knit up stitches neatly, try using needles 1 or 2 sizes smaller than those in the instructions - but do not forget to change back to the correct size for knitting the band. Some knitters use a crochet hook to pull the stitches through, slipping them one at a time on to the needle.

Neatening the side edge of your cast-on. Before slipping the last cast-on stitch on to the left-hand needle, pass the yarn from back to front between the points of the two needles, then slip the stitch on to the left-hand needle. This prevents a curved edge on the last stitch.

THE **Patons** HAND KNIT AND CROCHET
RATINGS HELP YOU CHOOSE
THE PATTERN SUITED TO YOUR KNITTING AND CROCHET ABILITY

 One beehive says this is a beginner level of knitting and crochet. Basic stitches only, with simple shaping.

 Two beehives mean easy knits and crochet, with some fancy patterns and simple 2 colour patterns and cables.

 Three beehives are for advanced knitters and crochet workers, requiring some specialised knowledge such as Fair Isle, Aran and more complicated lace patterns.

 Four beehives signal a challenge knit. There can be make and lose patterns, complicated shaping, and any technique that requires a higher level of concentration.

P The letter P after any beehive grouping suggests that an additional degree of patience is required for a quality finish.
